HISTORICAL MEMORANDA OF THE CHOLEza .- In 1832, the first case of cholera in New York was on the 17th of June, and, from that time till October, it destroyed about 6,000 persons. It is supposed to have had its origin in India, spreading thence to Prussia, Russia, Holland, England, and from the latter to this country. In one city of India, Jessore, 10,000 deaths took place out of a population of 60,000. Between 18-17 and 1831 the cholera carried off 18,000,-000 of the population of India. In 1832, it carried off 5,280 in London, and 52,000 in Great Britain and Ireland; and, in 1848, in these same places, 72,180.

Show us a lady's bonnet, and we'll tell you what sort of an institution she is .-If it is showered with ribons, Cupid's bows &c., she is as full of love and poetry as a country in is of politicians and loafers. If she goes in for wrinkles, plain colors, and a couple of modest knots, she is a perfect jewcl, sweet, mild, and as affectionate as a freshnursed kitten. Conventing .- We heard of a rich incident that occurred at a Methodist prayer meeting, once upon a time, not a thousand miles from this place, and we cannot resist the inclination to put it in print. We have references who are willing to vouch for its truthfulness.

The minister, whose name was John, afseason of prayer, edged "up" to a group of young ladies, who had recently been converted, and asked.

"Do you, ladies, love the Lord!" "Yes, sir," answered one of them. "Well, then," said the minister, "kiss brother John for the Lord's sake!"
